## WORK EXPERIENCE

### Finance and Operations Manager

WG Mica Hardware · 2020–2025 · Queenstown, Eastern Cape

- Leveraged advanced data analytics to identify operational inefficiencies, delivering actionable insights that supported strategic decision-making and drove measurable process improvement outcomes.
- Developed and maintained KPI dashboards and financial reporting frameworks providing real-time visibility into business performance metrics.
- Managed end-to-end AP/AR cycle, GL reconciliation, trial balance, and year-end close in alignment with IFRS standards and regulatory compliance requirements.
- Implemented document control and compliance management systems, enhancing operational efficiency and audit readiness across the organisation.
- Produced data-driven refinancing proposal utilising financial modelling and scenario planning; accepted by lending institution on first presentation.

### Financial Operations and Insights Lead

Protea Superspar · 2015–2020 · Queenstown, Eastern Cape

- Delivered quarterly financial reporting and variance analysis to support external accountants and auditors across multi-site operations.
- Designed and implemented Excel-based KPI dashboards and exception reporting tools, driving significant process optimisation and reducing reporting cycle time from one week to same-day.
- Conducted root cause analysis to identify systematic operational gaps, translating findings into actionable recommendations for stakeholder review.
- Served as SIGMA ERP Super User, supporting cross-functional system utilisation and continuous improvement of data quality.

### Loss Prevention Analyst and Store Manager

Truworths and Identity · 1998–2007 · Durban and Pietermaritzburg, KZN

- Utilised data-driven analytical methodology to optimise store performance, achieving 250% improvement in sales density through structured KPI management and performance benchmarking.
- Led cross-functional process improvement initiatives across five store locations, embedding performance measurement frameworks and analytical capability uplift.
- Conducted forensic data analysis to identify and investigate fraudulent activity; produced formal findings documentation resulting in 46 successful terminations.
- Delivered clean Deloitte external audit 2006. Reduced stock loss from 4% to 1.46% during operational disruption.

### Manager and Buyer · Komani Meats and Saverite · 2012–2015

- Applied demand planning and margin analysis methodologies to drive data-led procurement decisions and vendor performance optimisation.

## FMCG Buyer · Bronkho Cash and Carry · 2008–2010

- Delivered above-market portfolio growth during the 2008 global financial crisis through structured buying analysis and performance benchmarking.
